EXPERIENCE

Software Engineer Soroco

October 2021 - September 2024

- Designed and maintained data pipelines on **AWS** (Redshift, SQS, EC2) for the **Amazon Finance team**, processing 4,000+ monthly invoices across 24 countries and automating 92% of workflows
- Improved automation efficiency from 69% to 88% by optimizing data processing and transformation logic
- Built data ingestion and transformation workflows using Python and PostgreSQL for financial reporting
- Automated report generation pipelines via APIs, reducing manual effort by 95% and enabling real-time insights
- Designed, created and tested standalone chat feature for HDFC Life Insta web and mobile application and upgraded ionic libraries.
- Technology Used** : AWS RDS, Redshift, EC2, SQS, Cloudwatch, Python, Django, Airflow, PostgreSQL, Pandas, Amazon DJS

Full Stack Developer/ Programmer Analyst Cognizant Technology Solution

July 2020 - October 2021

- Developed backend APIs and optimized data workflows for banking systems integration. Improved system performance and reduced latency in financial transaction processing
- Technology Used** : Java, Oracle DB

PROJECTS

Log Processing Data Pipeline

Link: bit.ly/satvik-etl-log-pipeline

- Built a data pipeline to process structured log data using Python, SQL, Airflow, Docker and Streamlit
- Implemented ETL workflow to ingest, transform, and store logs for analytics

AWS Data Warehouse & Dashboard

Link: bit.ly/satvik-aws-warehouse-dashboard

- Designed a data warehouse schema for business metrics
- Wrote complex SQL queries for KPI reporting
- Built simple dashboards for data visualization

EDUCATION

University of Trier, Germany

Masters of Data Science

Present : October 2024- 2026

SRM Institute of Science & Technology, Chennai

B.Tech in Information Technology

2016 - 2020

CGPA: 82.23%

TECHNICAL SKILLS

Proficient with:

Programming : Python, Java

Data Engineering: SQL, ETL Pipelines, Data Modeling

Cloud & Tools: AWS (Redshift, SQS, EC2, CloudWatch)

Databases: PostgreSQL, MySQL, MongoDB

RESEARCH

A CRNN Based Approach for Text Recognition and Conversion of Text To Speech in Various Indian Languages

Link : bit.ly/satvik-researchpaper
